DIALYSIS CATHETER CAPS

Low-cost, high-quality injectable and SaniGuard™ non-injectable dialysis catheter caps. SaniGuard™ caps have a recessed center to minimize possibility of contamination. Save money on these easy-to-grip, easy-to-use catheter caps.

RECIRCULATION CONNECTORS

Convenient recirculation connectors for pre-dialysis rinsing, mid-dialysis recirculation, post-dialysis rinseback, syringe-to-syringe transfers.

RPC's catheter caps and recirculation connectors give you the following benefits:

- ◆ **Easy to grip and install.**
- ◆ **Luer lock connection for maximum patient safety.**
- ◆ **Distinct color for fast identification. Injection cap is latex-free.**
- ◆ **One per sterile/non-pyrogenic package eliminates waste.**
- ◆ **Low cost and high performance gives you the best value available.**
