

Blood Pressure Cuffs

Accu-Read™ reusable blood pressure cuffs are durable, latex-free, nylon blood pressure cuffs compatible with dialysis machine automated modules. A strong but gentle nylon material provides optimum patient comfort while enduring repeated inflations and multiple uses.

Features & Benefits:

- Reusable Cuffs, Latex Free
- Low cost/high quality alternative to using manufacturer's part.
- Generous hook and loop sizing assures a secure and snug fit.
- Each cuff assembly is complete with a single tube bladder and a female luer-lock fitting.
- Superior resistance to chemical solutions used to clean cuffs.
- Dark blue color helps to keep cuff looking new longer. Easy to clean!
- Proven durability of RPC cuffs saves time and money.

RPC also offers a complete line of SoftCheck™ patient dedicated blood pressure cuffs. SoftCheck™ latex-free cuffs are made from a white cloth fabric and have no bladder. They are soft and comfortable on skin and incredibly durable. Cuff measurements are listed for easy identification.
