E-Z Foam™ Drain Cleaner

E-Z Foam™ contains a concentrated blend of citrus oil, foaming agent, and natural microbes that eliminate organic debris and odor without harsh chemicals. This unique foam is designed to penetrate biofilm and cling to the sides of drains, wall boxes and pipes to remove organic material while blocking the production of noxious odors. This highly effective formulation of active cultures results in high performance degradation and removal of organic materials in both aerobic and anaerobic environments. Use our E-Z Foamer™ pictured below, to conveniently dilute & apply E-Z Foam™ concentrate.

Features & Benefits:

- Concentrated foam cleaner penetrates and clings to drains and plumbing, improving flow.
- Mildly scented formula eliminates noxious drain odors.
- Removes hard to reach organic material from drains, cracks & crevices.
- Non-corrosive, safe for all types of plumbing.
- More effective than typical drain cleaners, hot water, detergents, bleach and ammonia
