## Description

**E-Z FOAM™ DRAIN CLEANER** is specifically designed for cleaning drains and hard-to-access corners, cracks and crevices. **E-Z Foam™** “clings” to drain sides and cracks and crevices. **E-Z Foam™** contains a proprietary blend of concentrated bioenzymatic actives for degrading the most resistant grease molecules, the long-chain fatty acids.

**E-Z Foam™** must be applied using only the **E-Z Foamer™** Professional Application Foamer from RPC.

### *E-Z Foam™ Instructions for Use (Part Number: EZ-1284)*

- 1) Pour tap water into the **E-Z Foamer™** until the water level is at the four (4) liter mark (liter markings are embedded on the foamer).
- 2) Add **E-Z Foam™** concentrate until the total liquid level in the foamer is at the five (5) liter mark. This is a mixing ratio of 4 liters of tap water plus 1 liter of **E-Z Foam™** (4:1, 5X).  
**Note: For embedded or difficult drain biofilms, use a mixing ratio of 3 liters of tap water plus 2 liters of E-Z Foam™ (3:2, 5X)**
- 3) Using the foamer wand, carefully and gently stir the **E-Z Foam™** solution to mix it.
- 4) Put the pumper back into the **E-Z Foamer™** and rotate it to lock it into place. Follow all **E-Z Foamer™** Instructions for Use and then pump the **E-Z Foamer™** to 30 psi.
- 5) Foam into drain as deep as possible (4 to 6 feet is recommended) and around edge of drain and drain cover. *Sixty (60) seconds of foam at 30 psi is optimal.* If necessary, cover part of drain opening when foaming to force foam down the drain. Apply at time of lowest drain use, and avoid using drain until foam has collapsed.
- 6) For the first week, apply **E-Z Foam™** once per day (typically at night or end of day’s work). Repeat application every 2 weeks as needed to maintain drains.

**Note:** *A small amount of visible brown/gray sediment at the bottom of the E-Z Foam™ bottle is normal. If sediment is present, gently swirl or shake the bottle to move the sediment back into solution.*

### **Precautionary Statements** **Hazards to Humans and Domestic Animals**

#### CAUTION:

- DO NOT USE OTHER DRAIN CLEANING PRODUCTS WITH **E-Z FOAM™**.
- WEAR PERSONAL PROTECTIVE EQUIPMENT (PPE)
- HARMFUL IF SWALLOWED: Ingestion may cause abdominal pain, nausea, or vomiting.
- HARMFUL IF INHALED: Inhalation may cause irritation to lungs and mucous membranes.
- CAUSES MODERATE EYE IRRITATION: Contact with eyes may cause eye irritation.

#### FIRST AID:

- IF SWALLOWED: Watch for any signs of illness. Induce vomiting only if advised by physician.
- IF INHALED: Remove person to fresh air. If breathing problems develop, see a physician.
- IF IN EYES: Rinse eyes with water for 15 minutes. Call a physician if irritation persists.
