Water Treatment Training for Hemodialysis on Multi-media CD-ROMS

RPC/Rabrenco Scientific is pleased to introduce the **first** in a series of new and unique, interactive hemodialysis water treatment training CD-ROMS. The complete course is contained on four CD-ROMS. Each of the four volumes offers a total learning experience using the latest high technology multi-media presentation techniques. Systematic and logical progression through each topic and each CD volume, along with encyclopedic detail, guarantees a short learning curve and a comprehensive understanding of all aspects of water treatment for hemodialysis.

- ◆ **Colorful video and graphic animations.**
- ◆ **High quality audio output with options.**
- ◆ **Keyword/outline links. Find information easily.**

- ◆ **Interactive exercises. H₂O system simulations.**
- ◆ **Topic/word search and printable text files.**
- ◆ **Final examination with completion certificate.**

CD-Rom-Volume I. "Pretreatment" is available now. Topics in Volume I include:

- | | | |
|--------------------------------|---------------------------|--|
| • Origin of Water Contaminants | • Iron & Manganese | • Sand Filters |
| • Suspended Solids/Particles | • Aluminum | • Ion Exchange Resin |
| • Atoms & Molecules | • Purpose of Pretreatment | • Softener: Design, Regeneration, Monitoring & Maintenance |
