Tube Occluders

High quality line or tube occluding clamps are available from RPC. Tube occluders are used to constrict or occlude the lumen of a flexible tube. Superior design ensures jaws remain aligned when tubing is occluded and released. Smooth jaws will not damage tubing. Occluders are composed of lightweight, durable nylon. Aluminum rivets will not rust. To clean, follow medical device cleaning protocols established by facility.

- ◆ Plastic occluders cost only a fraction of its metal counterpart.
- ◆ Used to occlude medical grade tubing from 1mm to 8mm.
- ◆ Oversized finger holds for ease of use.
- ◆ Reusable, lightweight, safe and effective.
- ◆ Durable. Made in the USA.
- ◆ Available in Dark Blue, Sky Blue, White, Green, Red and Yellow

<u>Part Number</u>	<u>Description</u>	<u>Packaging</u>
7001-3950	Tube Occluder – Forceps, Plastic Premium Grade, Blue is standard. -SB (Sky Blue), -W (White), -G (Green), -R (Red), -Y (Yellow)	100 per bag

Fistula Clamps

After the completion of a dialysis treatment, gauze and applied pressure are often required to stop the bleeding from the injection site. Fistula Clamps from RPC provide consistent pressure without pinching the patient's arm or thigh. RPC's fistula clamps are reliable, comfortable, and light weight. For superior comfort and support, the ultra grip cover is also available to prevent slide off issues that occur with the use of gauze.

- ◆ Stainless steel spring.
- ◆ Adjustable to fit most arm and thigh sizes.
- ◆ Made in the USA from durable plastic with stainless springs.
- ◆ Administers 1-1.5 pounds of pressure to wound site.
- ◆ Correctly riveted clamps prevent breakage.
- ◆ Reusable, available in multiple colors.

<u>Part Number</u>	<u>Description</u>	<u>Packaging</u>
7001-3955	Fistula Clamp – Spring Loaded, White is standard. -B (Blue), -G (Green), -R (Red), -Y (Yellow)	10 per bag
