

CalRite® QC Standard Solutions

RPC offers a line of high quality standard solutions that give a known value for use in checking the calibration or accuracy of testing devices. A wide range of standard solutions are available for use with conductivity, TDS, and pH testing devices.

Features & Benefits:

- *National Institute of Standards & Technology – compliant/traceable*
- *90 day storage/expiration period for opened containers.*
- *Multiple solution types available to satisfy different QC needs.*
- *Color-coded labeling helps prevent solutions mix-up & confusion.*
- *Easy-to-use bottles, conveniently sized to minimize waste.*
- *Save time & money by keeping test meters properly maintained.*

Part Number	Description	Packaging
S-0010	4.0 pH Buffer Solution	500 ml
S-0011	7.0 pH Buffer Solution	500 ml
S-0012	7.0 pH Buffer Solution	1L
S-0013	10.0 pH Buffer Solution	500 ml
S-0019	150µS NaCl Conductivity Standard Solution	500 ml
S-0021	1.0 mS NaCl Conductivity Solution	500 ml
S-0024	14.0 mS NaCl Conductivity Solution	500 ml
S-0025	14.0 mS NaCl Conductivity Solution	1L
S-0026	50 mS NaCl Conductivity Standard Solution	500 ml
S-0027	50 mS NaCl Conductivity Standard Solution	1L
S-0028	100 mS NaCl Conductivity Solution	500 ml
S-0029	30ppm Water TDS Solution	1L
S-0030	15ppm Water TDS Solution	1L
S-0031	150ppm Water TDS Solution	1L
S-0032	300ppm Water TDS Solution	1L
S-0033	1500ppm Water TDS Solution	1L
S-0034	3000ppm Water TDS Solution	1L
S-0043	ProbeRite® Sensor Cleaning Solution	500 ml
S-0044	ProbeRite® Sensor Cleaning Solution	1L
