## Tube Occluders

High quality tube occluders from RPC are used to constrict or occlude the lumen of flexible tubing from 1mm to 8mm. Superior design ensures jaws remain aligned when tubing is occluded and released. Smooth jaws will not damage tubing. Occluders are composed of lightweight, durable nylon. To clean, follow medical device cleaning protocols established by facility.

### Features & Benefits:

- Plastic occluders cost a fraction of metal counterparts
- Aluminum rivets will not rust
- Oversized finger holds for ease of use
- Reusable, lightweight, safe & effective
- Durable. Made in the USA
- Available in multiple colors

*\*To clean, follow medical device cleaning protocols established by facility*
