Spiral Coil Tubing

The retractable, self-storing nature of coiled tubes has led to their use as a component part in many different medical and non-medical applications. Some of the medical applications for which coiled tubes have been used include: blood pressure cuff tubing, surgical room pneumatic tools, pneumatic hospital beds, blood analysis equipment, oxygen therapy, vacuum tubing, and dialysis machine concentrate delivery lines. Polyurethane (PUR) coiled tubing is often preferred for these applications as it has outstanding memory (much better than PVC) and flexibility. PUR coils are extremely tough and resistant to abrasion, overstretching and kink damage. In addition, RPC PUR coils are easier to use.

- ◆ Excellent for use as retractable tubing for medical applications.
- ◆ Superb flexibility and restorability.
- ◆ Good temperature resistance.
- ◆ Working pressure to 140 psi. Burst pressure of 420 psi.
- ◆ Unique manufacturing gives better durability than other brands
- ◆ Multiple colors (opaque & transparent): yellow, dark blue, red, etc.

Many sizes and colors are available. Call for details.
Coiled tubing made from PVDF is also available.

Test your coiled tubing selection to be certain it is suitable for use in your application.

Accu-Read™ Blood Pressure Cuffs

RPC's blood pressure cuffs are high on reliability and low in cost. They are top quality, durable, nylon blood pressure cuffs that are compatible with dialysis machine automated modules. These cuffs are priced significantly lower than the machine manufacturer's. Each cuff is quadruple stitched in critical areas for maximum strength. A strong but gentle nylon material provides optimum patient comfort while enduring repeated inflations and multiple uses.

- ◆ Low cost/high quality alternative to using manufacturer's part.
- ◆ Generous hook and loop sizing assures a secure and snug fit.
- ◆ Dark blue color helps keep cuff looking new longer. Easy to clean.
- ◆ Superior resistance to chemical solutions used to clean cuffs.
- ◆ Manufactured to meet American Heart Association guidelines.
- ◆ Full range of sizes for the adult patient. Easy to use.

RPC also offers a complete line of SoftCheck™ patient dedicated, disposable blood pressure cuffs. SoftCheck™ latex-free cuffs are made from a white cloth fabric and have no bladder. They can be quickly identified, easily cleaned, and are unusually soft, yet very durable.

P/N BP00 XXXX series (Reusable Cuffs) • P/N STXXXX series (Disposable Cuffs)
