E-Z Chek® Residual Chlorine Test Strips

Residual chlorine test strips measure the concentration of chlorine bleach remaining in water being used to rinse out dialysis machines, water distribution loops, and containers. A rapid 5 second qualitative screening will detect levels at and above 0.5ppm/mg/L (AAMI limit) and a semi-quantitative reading between 0 and 5 ppm at 30 seconds.

Features & Benefits:

- Eliminate messy, time consuming reagent test methods
- Five color blocks for easy, accurate testing
- Verifies compliance with AAMI recommendations
- Quick & easy 5 second qualitative or 30 second quantitative test
- FDA 510(k) cleared
- Backed by RPC's Certi-Chek™ program
